PROFIL

Experienced Full Stack Engineer with a degree in Software Engineering. Proven expertise in building robust web applications using Spring Boot, .NET ,Angular, Wordpress and Symfony. Strong ability to deliver secure and efficient solutions across various sectors, including healthcare.

TECHNICAL SKILLS:

PROGRAMMING LANGUAGES:
JAVA, C# ,PYTHON, PHP , JAVASCRIPT, HTML ,CSS ..

DATABASES:
SQL, MYSQL , POSTGRESQL ,SQL SERVER

Frameworks :
Spring Boot, .Net , Angular, JavaFX, Symfony, DevExpress, Wordpress, React

Methodologies:
Agile (Scrum, Kanban), DevOps, MVC

Version Control Tools
GIT , GITHUB

DevOps
JENKINS , DOCKER , JUNIT .

PROFESSIONAL EXPERIENCE

FULL STACK ENGINEER

MEISTE CAPITAL

Mars 2025- Present
Nancy , France

- Participation in multiple enterprise projects using Symfony and React, focusing on the development of scalable and secure web applications.
- Designed business solutions for event management, e-commerce, plugin development, and interactive React interfaces.
- Integrated APIs, handled authentication processes, and managed complex data structures.
- Collaborated within cross-functional teams in Agile environments using Scrum methodology, ensuring efficient development cycles, continuous improvement, and high-quality deliverables.

SOFTWARE ENGNEER

EASYSOLUTIONS

September 2024-2025
Tunis , Tunisia

- Development and deployment of robust and scalable web and desktop applications using .NET and React. My expertise spans various domains, including point-of-sale systems, banking applications, and more. I have a strong understanding of software development principles, design patterns, and agile methodologies. Passionate about building high-quality, user-friendly applications that meet both business and end-user needs.
- DevOps: Implemented Docker containers for development and production environments, configured continuous integration with Jenkins, and optimized application performance using monitoring tools.

FULL STACK DEVELOPER

FREELANCE

October 2023 - May 2024
Paris , France

- Frontend Development: Built responsive and user-friendly interfaces using Angular.
- Backend Development: Implemented robust server-side logic with Spring Boot to handle user data and interactions.
- Database Management: Designed and maintained secure databases to manage user information and exchange lists.
- API Integration: Integrated third-party APIs to enhance application functionality.
- Security: Ensured data security and compliance with privacy standards throughout the development process.
- DevOps: Deployed applications using Docker, managed CI/CD pipelines with Jenkins, and hosted them on a secure cloud server.

FULL STACK DEVELOPER

DECLITECH

September 2024-2025
Tunis , Tunisia

Guided children in learning web development and artificial intelligence, inspiring them to become tomorrow's innovators. Shared technical expertise and provided mentorship in using modern technologies.

ACADEMIC PROJECTS

Business & Travel – Web Application (Spring Boot/Angular)

- Developed a comprehensive web platform enabling companies to find and connect with travel partners for professional purposes. Implemented user authentication, partner matching algorithms, and real-time messaging features. Ensured a responsive UI with Angular and a secure, scalable backend with Spring Boot. Managed version control and collaborative development through GitHub, and automated deployment with DevOps practices.
- *Technologies used*: Spring Boot, Angular, REST APIs, JWT Authentication, DevOps (CI/CD), GitHub

Oofando – Desktop/Web Application (Spring Boot/JavaFX)

- Built a multi-platform event management system allowing users to create, customize, and manage events efficiently. The application supports scheduling, participant registration, and notification systems. Designed following MVC architecture to maintain clean separation of concerns and scalability. Enabled data persistence and secure user management via Spring Boot, with a rich desktop interface using JavaFX.
- *Technologies used:* Spring Boot, JavaFX, MVC, REST APIs, GitHub, MySQL

Smart Farm – Desktop Application (C#/DevExpress)

- Created a smart farm management solution featuring livestock tracking, inventory control, messaging, and real-time notifications to optimize farm operations. Developed with C# and DevExpress components on Ubuntu, the application supports role-based access and data analytics dashboards. The MVC pattern was applied for maintainability, and integration with external sensors was considered for future enhancements.
- *Technologies used:* C#, DevExpress, Ubuntu, MVC, SQLite, Notification Systems

INTERNSHPS

- **Final Internship – TYM : TRAIN YOUR MIND**
  Period: Mars 2023 - October 2023
- Developed a Full Stack web application using Spring Boot and Angular, providing a secure platform for interaction between mental health specialists and their clients. Implemented features such as user authentication, appointment scheduling, confidential messaging, and data protection compliant with privacy standards. Collaborated closely with the team to ensure a user-friendly interface and reliable backend services.
- **Summer Internship – DIPower**
  Period: June 2022 - August 2022
- Developed a Full Stack web application using Spring Boot and Angular for a non-profit organization, enabling efficient management of volunteers and online donations. Implemented user registration, role-based access, donation tracking, and reporting features to support the organization's operations.
- **Summer Internship – TTeleccom**
  Period: June 2022 - August 2022
- Built a web application with Spring Boot to facilitate and organize user interactions. Focused on backend development, implementing secure data handling, API endpoints, and integration with frontend components for seamless communication.

EDUCATION

ESPRIT : 2020-2024

DEGREE IN SOFTWARE ENGINEERING

ULT : 2018-2020

PREPARATORY DIPLOMA MPSI (MATHEMATICS, PHYSICS, AND ENGINEERING SCIENCES)

INTERESTS

Hiking and Outdoor Activities: Actively involved in organizing and managing hiking events.
Volunteering and Community Engagement: Experience with Lions Jeanne d'Arc and Tunivisions associations.
SoftSkills: Leadership, problem-solving, adaptability, teamwork, and continuous learning.
