

YOSRA DAB

Full Stack Software Engineer — AI & Agents

dabyosra@gmail.com | +216 23 309 333 | Tunis, Tunisia | linkedin.com/in/yosradab | github.com/yosradab | yosradab.vercel.app

PROFILE

Software Engineer (ESPRIT, 2024) with 2 years of full stack experience in enterprise environments (Java/Spring Boot, .NET, Symfony, Angular). Strong focus on applied AI: built a complete AI agent and MCP connector in Python (FastAPI, MCP SDK 2.x, tool calling). Engineering mindset: clean architecture, secure APIs, testing, CI/CD.

TECHNICAL SKILLS

AI & Agents: AI Agents, Model Context Protocol (MCP), Tool Calling, FastAPI, Anthropic & OpenAI APIs

Backend: Java/Spring Boot, C#/.NET/ASP.NET, PHP/Symfony, REST APIs, JWT

Languages: Python (AI/MCP), Java, C#, PHP, TypeScript/JavaScript

Frontend: Angular, React, HTML5/CSS3

Databases: MySQL, PostgreSQL, SQL Server, SQL optimization

DevOps: Docker, Jenkins, CI/CD, GitHub Actions, Git, Postman, JUnit

Methods: Agile/Scrum, Clean Architecture, microservices

PROFESSIONAL EXPERIENCE

Frontend Engineer — Light My Web

2026 – Present

Tunis, Tunisia · Hybrid

- Build dynamic, responsive Angular interfaces for a range of client projects
- Optimize performance and accessibility within an Agile workflow

Full Stack Engineer — MC Meiste Capital

2025 – 2026

Nancy, France · Remote

- Developed Symfony/WordPress applications and React interfaces for enterprise projects
- Designed secure REST APIs and optimized SQL performance with distributed France/Tunisia teams

Full Stack Software Engineer — Easy Computer & Technology

2024 – 2025

Tunis, Tunisia · Hybrid

- Developed .NET/ASP.NET applications (POS systems, banking applications) and REST APIs on SQL Server
- Set up CI/CD pipelines with Jenkins and Docker

Full Stack Engineer — Freelance — International Clients

2023 – 2024

France · Remote

- Delivered Spring Boot + Angular projects end-to-end: JWT authentication, cloud deployment, microservices
- Ensured security compliance and quality across the CI/CD cycle, fully independently

Full Stack Engineer — Graduation Internship — Train Your Mind (TYM)

2023

Tunisia · Hybrid

- Built a Spring Boot/Angular platform for mental health specialists: JWT, confidential messaging, RBAC, PostgreSQL, JUnit testing

SELECTED PROJECTS

AI Agent + MCP — Support Desk [Python, FastAPI, MCP SDK 2.x, Anthropic & OpenAI] — AI agent that creates, lists, and analyzes support tickets in natural language via an MCP server; the same backend is consumed by both a human frontend and the agent (MCP). Demonstrated multi-LLM support (Claude + GPT), with an API-key-free demo mode.

Business & Travel [Spring Boot, Angular, MySQL, Docker] — B2B travel platform: JWT authentication, real-time messaging, CI/CD.

DIPower – Nonprofit [Spring Boot, Angular, MySQL, Stripe] — Nonprofit platform: secure donations, admin dashboard.

Smart Farm [C#, DevExpress, SQL Server, MVC] — Smart farm management: real-time alerts, analytics dashboard.

EDUCATION

Software Engineering Degree — ESPRIT · 2020 – 2024

Preparatory Cycle (MPSI) — Université Libre de Tunis · 2018 – 2020

LANGUAGES

French: Fluent (working language) | English: Professional (technical, written, client) | Arabic: Native
