

YOSRA DAB

Full Stack Software Engineer • Java / Angular / .NET / Symfony

dabyosra@gmail.com | +216 23 309 333 | Tunis, Tunisia | linkedin.com/in/yosradab | github.com/yosradab | yosradab.vercel.app

PROFILE

Full Stack Software Engineer (ESPRIT, 2024) with 2+ years of experience delivering enterprise projects in remote and hybrid settings. End-to-end development expertise — REST API design, database architecture, Angular/React interfaces — across Java/Spring Boot, .NET, and Symfony/WordPress stacks. Results-driven, comfortable in Agile/Scrum environments, with proven international freelance experience.

TECHNICAL SKILLS

Backend: Java, Spring Boot, C#, .NET/ASP.NET, Symfony, PHP, REST APIs, JWT

Frontend: Angular, React, TypeScript, JavaScript, HTML5/CSS3

Databases: MySQL, PostgreSQL, SQL Server, query optimization

DevOps & Tools: Docker, Jenkins, CI/CD, GitHub Actions, Git, Postman, JUnit

Methods: Agile/Scrum, MVC, microservices, Clean Architecture

PROFESSIONAL EXPERIENCE

Frontend Engineer — Light My Web

2026 – Present

Tunis, Tunisia • Hybrid

- Build dynamic, responsive Angular interfaces for a range of client projects
- Contribute Spring Boot backend development to support full-stack delivery
- Optimize user experience: performance, accessibility, and component consistency
- Collaborate closely with backend and design teams in an Agile workflow

Full Stack Engineer — MC Meiste Capital

2025 – 2026

Nancy, France • Remote

- Delivered Symfony (PHP) web applications for enterprise clients — e-commerce and event-management modules
- Designed dynamic interfaces with React.js and integrated secure REST APIs
- Built custom WordPress plugins and optimized SQL performance
- Collaborated in Agile with distributed France/Tunisia teams (fully remote)

Full Stack Software Engineer — Easy Computer & Technology

2024 – 2025

Tunis, Tunisia • Hybrid

- Developed and deployed robust web applications with .NET Framework and ASP.NET (POS systems, banking applications)
- Designed REST APIs and integrated SQL Server databases with query optimization
- Set up CI/CD pipelines (Jenkins + Docker) and contributed to Agile code reviews

Full Stack Engineer — Freelance — International Clients

2023 – 2024

France • Remote

- Delivered end-to-end full stack projects (Spring Boot + Angular) for international remote clients
- Designed secure databases, integrated third-party APIs, and managed microservices
- Implemented JWT authentication, cloud deployment, and security compliance across the CI/CD cycle
- Owned delivery fully independently: scoping, development, testing, production release

Full Stack Engineer — Graduation Internship — Train Your Mind (TYM)

2023

Tunisia • Hybrid

- Built a Spring Boot / Angular platform for mental health specialists: JWT authentication, confidential messaging, RBAC
- Implemented secure RESTful APIs with PostgreSQL, JUnit testing, and technical documentation

SELECTED PROJECTS

Business & Travel [Spring Boot, Angular, MySQL, Docker] — B2B platform connecting travel partners: JWT authentication, real-time messaging, Docker/Jenkins CI/CD deployment.

DiPower - Nonprofit [Spring Boot, Angular, MySQL, Stripe API] — Nonprofit platform: volunteer management, campaign tracking, online donations with secure Stripe payments and admin dashboard.

GoRando [Symfony, JavaFX, MySQL] — Multi-platform hiking event management system — planning, registrations, notifications. Web app (Symfony) + desktop app (JavaFX).

Smart Farm [C#, DevExpress, SQL Server, MVC] — Smart farm management solution: livestock tracking, inventory, real-time alerts, and analytics dashboard.

ClothingApp [.NET, C#, SQL Server] — Inventory and sales management app for a clothing business. Open source on GitHub.

E-Learning [ASP.NET, C#, MVC] — Online LMS with student management and interactive course delivery. MVC architecture. Open source on GitHub.

EDUCATION

Software Engineering Degree — ESPRIT, École Supérieure Privée d'Ingénierie et de Technologies

2020 – 2024

Preparatory Cycle (MPSI) — Université Libre de Tunis

2018 – 2020

LANGUAGES

French: Fluent (working language) | English: Professional (technical, written, client communication) | Arabic: Native
